

# Meeting of the SWG SCAR AKIS Strategic Working Group on Agricultural Knowledge and Innovation Systems

## Digitalisation strategy in the CAP plan and outside

Webinar 01-02/6/21 - Member State:

**FINLAND**

**SCAR**  
Standing Committee  
on Agricultural Research

# A) Digitalisation in CAP SP **SWOT and needs** assessment

- **Cross-sectoral digital strategy:** <https://vm.fi/en/programme-for-the-promotion-of-digitalisation> + more detailed in action plan 2021 and e.g. National AI program etc.
- **Strategy for public services:** <https://vm.fi/en/digital-services> is high on agenda **and services for business.**
- **For rural areas:** Access (broadband), other services, digital aid, services in municipal level, training.
- **CAP:** Digitalisation is considered most important in specific objectives 2, 3 and 8

## B) Digitalisation **interventions** in CAP SP

- **Main needs in agriculture:** Steady and easy access, feasible software, technology, knowledge,
- **Special interventions for digitalisation:** co-operation (broadband, farmer cooperation, young farmers), A-Environment, EIP, farm investments, training...
- **Which sectors and which beneficiaries are targeted by those interventions?** The idea is to build digital innovation ecosystem where all the partners are finding their place.

## D) Digitalisation strategy

- National **AgriHubi (AKIS)**–network, connected to and cooperating with CAP-network.
- AgriHubi is running **Theme Groups for Smart Farming** and **Farm Management**. Their task is to make the roadmap to a new 2030. Including national and CAP actions DIH actions, evaluating the public and private data resources, interfaces and using data and new technology in better farm management.
- Data in the whole food chain for better competitiveness.
- Security, my data, ground rules, data cooperatives > data space,
- Waiting for the EU Data legislation .

## Discussion:

All comments, questions and suggestions very welcome! [sirpa.karjalainen@mmm.fi](mailto:sirpa.karjalainen@mmm.fi)
