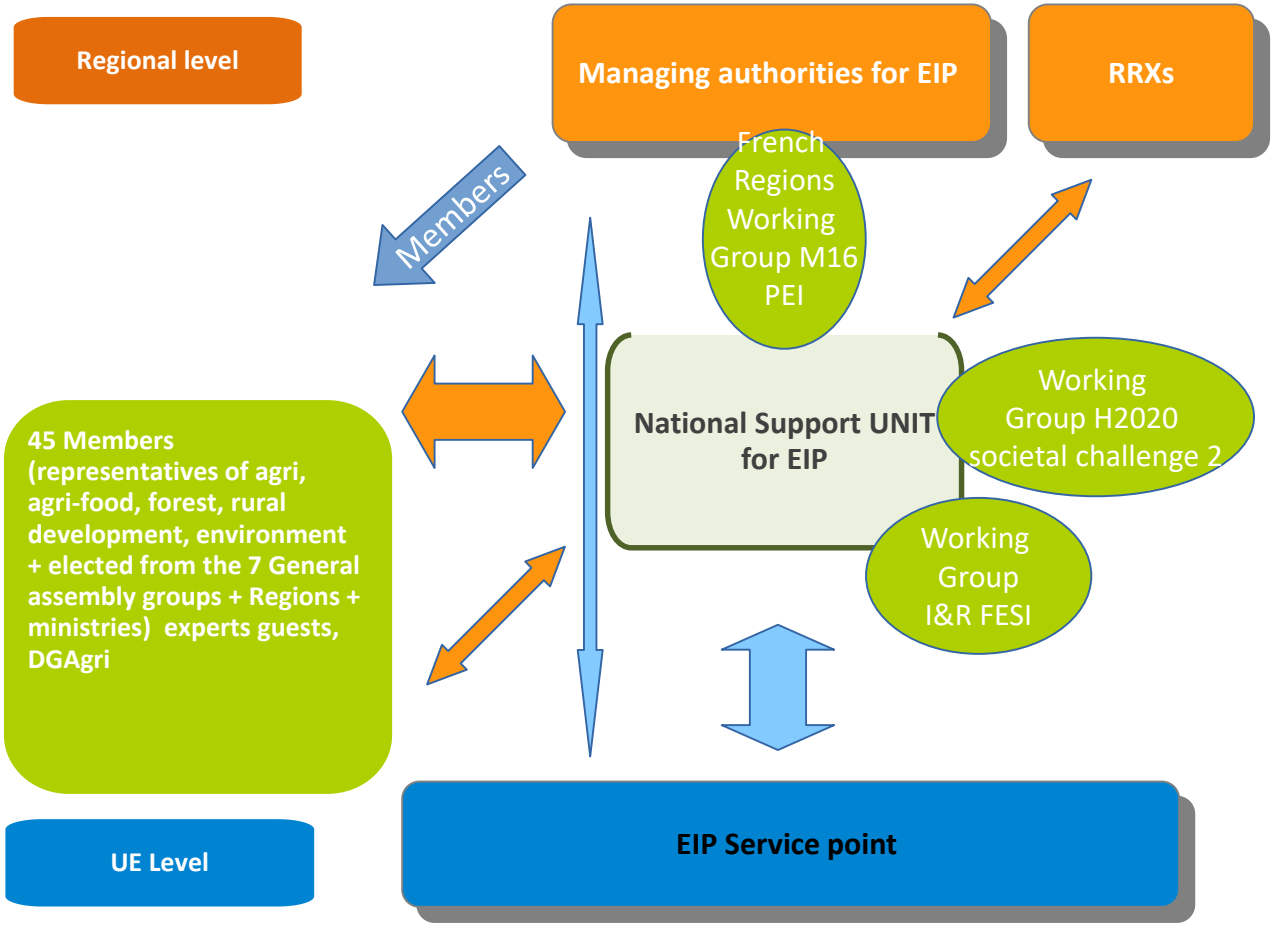
Activities connecting EIP supported by EAFRD and EIP supported by H2020

French examples

French EIP network

Governance



Ministry of Agriculture and Food
General directorate
for learning and research :
+
General directorate for
environmental + economic
performances

Activities connecting EIP in EAFRD and EIP in H2020

EIP networking : same efforts for CAP//H2020 coordination + multilevel coordination

Example 1 : advisory committee for EIP

For each committee : half a day dedicated to present EIP projects : OG's + H2020 projects

EIP committee of June 2018 was dedicated to :

- Reconcile economic, social and environmental performance , **to illustrate the EIP input several projects were exposed :** *SOLACE project, UNISECO, agri and bio food projects, OG "From farm welfare to farmer well-being" through an agroecological approach...*
- 3 parallel sessions : **ensure better connection between the projects**, better valorization of the projects and ensure transfer of EIP results

ExAmple 2 : EIP french seminar, november 2017

"EIP for a sustainable and productive agriculture : in the service of transitions"

Breaking session 1 = "**Is/are Protein Autonomy/ies possible ?"** with the OGs *SOS protéine* + *Qualiprat* and H2020 projects *Feed e gene* + *Inno4grass*

Breaking session 2 = **"These local initiatives creating values"** with the OGs *MidiPorc*, *Filière lait Mont Blanc*, *Moutarde de Bourgogne* and H2020 projects *TREASURE+ SKIN*

Activities connecting EIP in EAFRD and EIP in H2020

Example 3 :
Launching 5 thematic animations in order to identifiy, capitalize, adapt and share the results and experiments of EIP projects (CAP and H2020) with the stakeholders in the field (tailored results and peer to peer exchanges at local, regional inter-regional levels...)

Example 4:
EIP Platform : a window opens on the EIP Projects at regional and European levels :

EIP National support Unit actions plan
